Online Grantholder's meeting – Bilateral meeting with EACEA Project Officers

Published 05 February 2021

University of Bihać (UNBI) as representative from one of the beneficiary institutions located in a Partner Country together with the **Erasmus+ RiskMan** project coordinator Muğla Sıtkı Koçman University MSKU (Turkey) participated in the Bilateral meeting within "Online Grantholder's meeting" for all projects granted by Erasmus+ CBHE in 2020 hosted by the Education, Audiovisual & Culture Executive Agency (EACEA) from January 25 – 29, 2021. Online bilateral meetings with EACEA representatives – project officers Giulia MORO and Danielle PICOT, were held on January 28th and February 4th, 2021. On behalf of University of Bihać the online meetings were attended by UNBI RiskMan team: **Prof. Asoc. Azra Bakrač**, **Prof. Ass. Emir Mujić**, **MA Subha Džafić** – Senior Assistant and **Nermina Badić** – Office of Academic and Student Affairs at UNBI.

Bilateralni sastanci sa projektnim službenicima EACEA

*Univerzitet u Bihaću kao predstavnik institucija iz partnerskih zemalja u projektu **Erasmus+ CBHE RiskMan** zajedno sa koordinatorom projekta Muğla Sıtkı Koçman Univerzitetom – MSKU (Turkey) uzeo je učešće u bilateralnim sastancima organiziranim u okviru "Online Grantholder's meeting" za sve odobrene projekte iz programa Erasmus+ CBHE za 2020. godinu. Domaćin ovih aktivnosti je bila Izvršna agencija za obrazovanje, audiovizuelnu i kulturu Evropske komisije (EACEA) od 25. do 29. januara 2021. godine. Online bilateralni sastanci sa predstavnicima EACEA – projektnim službenicima Giulia MORO and Danielle PICOT održani su 28. januara i 04. februara 2021. godine. Kao predstavnici Univerziteta u Bihaću sastancima su prisustvovali članovi UNBI RiskMan tima: prof. dr. Azra Bakrač, doc. dr. Emir Mujić, MA Subha Džafić – viši asistent i Nermina Badić – Ureda za nastavu i studentska pitanja Univerziteta u Bihaću.*

Online meeting between Coordinator of the RiskMan project , BiH project participants (UNSA and UNBI) and EACEA

An online meeting between the **Erasmus+ CBHE** coordinator of the **RiskMan project** (Muğla Sıtkı Koçman University – Turkey), BiH project participants (UNSA and UNBI) and EACEA representatives Anne GELLI and Luigi SAIA was held on Thursday, December 9, 2021. Equipment procurement process for needs of RiskMan project was discussed at the meeting as a joint procurement among partner institutions at national level, UNSA and UNBI.

Sarajevo meeting “Curricula Pilot Testing Meeting with accompanying committee meetings” – March 14th – March 18th 2022, Faculty of Science University of Sarajevo

Published: March 15th, 2022

Faculty of Science University of Sarajevo was a host for a hybrid event “Curricula Pilot Testing Meeting with accompanying committee meetings” of Erasmus+ RiskMan project. The event took a place between 14th and 18th of March, 2022. First day of the meeting was aimed at holding roundtables, meeting among project management team, presentation of reports and activities among WP2, WP3 and WP4, and planning future activities under WP5, as well. In the following meeting days, Curricula Pilot Testing in the field of Biology and impact of non-native aquatic species were main topic.

Erasmus+ RiskMan “Curricula Pilot Testing Meeting with accompanying committee meetings” u hibridnom obliku održan je u Sarajevu u periodu od 14. do 18. marta 2022. godine. Organizator sastanka je bio Faculty of Science University of Sarajevo. Tokom prvog dana sastanka održani su okrugli stolovi sa stakeholderima, sastanak menadžment tima projekta, prezentacija izvještaja i aktivnosti unutar WP2, WP3 i WP4, te planiranje budućih aktivnosti u sklopu WP5. U preostalim danima sastanka provedena su pilot testiranja kurikuluma iz oblasti biologije i impakta ne-nativni vodenih vrsta

Steering Committee RiskMan Meeting

Educational Capacity Strengthening for Risk Management of Non-native Aquatic Species in Western Balkans (Albania, Bosnia and Herzegovina and Montenegro)

November 10th Wednesday to 14th Sunday 2021

Muğla, Turkey

Muğla Sıtkı Koçman University, Kötekli Campus

On behalf of the University of Bihać and the UNBI RiskMan team *Prof. Asoc. Azra Bakrač* participated in the **Steering Committee RiskMan Meeting** held from November 10th Wednesday to 14th Sunday 2021 in City Muğla, Turkey, at the Muğla Sıtkı Koçman University, Kötekli Campus.

the meeting was focused on:

- Status overview of the RiskMan project and progress the work of the project (conclude WP2, run on WP3 and WP4),
- Identification and addressing issues and risks
- Providing relevant information on communication and visibility criteria
- Maintenance open lines of communication and foster team building

BiH National RiskMan Meeting

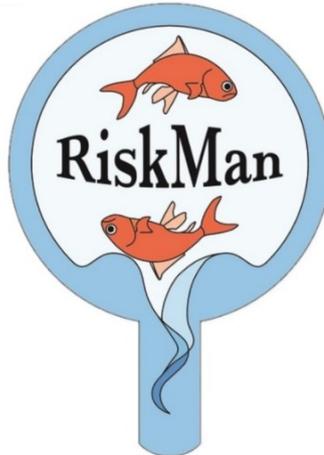

Published 01 October 2021

As part of the **Erasmus+ RiskMan project**, a national (BIH) meeting between UNSA and UNBI was held on September 30 at the Faculty of Science University of Sarajevo. The possibility of joint procurement of equipment through the RiskMan project was discussed at the meeting. The meeting was attended by *Asst Prof. Emir Mujić* on behalf UNBI and *Prof.dr. Nusret Drešković*, and *Prof. dr. Samir Đug* on behalf UNSA.

Erasmus+ RiskMan Kick-Off Meeting, Mugla, Turkey December 10th , 2020

Published 14 December 2020

The official **Kick-Off Meeting** of the Erasmus+ project RiskMan was held on December 10th, 2020. As coordinating partner of the consortium, Muğla Sıtkı Koçman University (Turkey) invited all project partners to this one day online meeting. The primary objective of the meeting was for all partners to get to know each other in order to create the right conditions to work together for the next 2 years. The UNBI team was represented by Prof. As. Azra Bakrač, Ph.D, MA Subha Džafić, Senior Assistant and Nermina Badić – Office of Academic and Student Affairs at UNBI.

*U sklopu aktivnosti Erasmus+ projekta RiskMan u organizaciji Muğla Sıtkı Koçman University (R. Turska) 10. decembra 2020. godine održan je zvanični jednodnevni online **Kick-Off Meeting**. Ispred UNBI tima sastanku su prisustvovali: prof. dr Azra Bakrač, MA Subha Džafić, i Nermina Badić – Ured za akademska i studentska pitanja na Univerzitetu u Bihaću.*

Erasmus+ RiskMan Balkan Tour

21-27 August, 2022, Kotor, Tirana, Ohrid

Published on September 5th, 2022

In the period from August 21 -27, 2022, Assoc Prof. Emir Mujić and Prof. Azra Bakrač from UNBI RiskMan team participated in the **Erasmus+ RiskMan Balkan Tour**. During the tour, several meetings were held in Kotor, Tirana and finally in Ohrid. Realization of these meetings is linked to the successful implementation of the WP3, WP4 and partially WP7 of the Project Proposal.

U periodu od 21. do 27. augusta 2022. godine van. prof. Emir Mujić i red. prof. Azra Bakrač učestvovali su na Erasmus+ RiskMan Balkanskoj turneji. Tokom ove turneje održana je nekoliko sastanaka u Kotoru, Tirani i Ohridu, a njihova realizacija je povezana sa uspješnom implementacijom WP3, WP4 i djelimično WP7 radnim paketima projekta.

- 10:30 - 11:00 Coffee break
- 11:00 - 12:30 Activities of WP4 (implementation of the WP4 visit to the Laboratories of Institute of Marine Biology and Faculty of Natural Science: presentation, simulation and training on the new bioactive compound BSM and 3D

Final conference, Mugla (Turkey) 11/09-15/09/2022

Published on October 3rd, 2022

As a part of the **Erasmu+ CBHE RiskMan project** project final conference was held in Mugla (Turkey) in period 12/9-15/9 of 2022. The final conference, as a project participant from the University of Bihać, was also attended by prof. Azra Bakrač. At the conference, the results of the project were presented, as well as all the activities that were carried out as part of the project. Prof. Azra Bakrač presented the results of pilot testing on invasive species in BiH. As a result of the pilot testing in BiH, very significant facts were observed regarding the issue of invasive species in the territory of BiH, namely: the concept of invasive species is almost unknown among the local population of BiH, very little attention is paid to this issue, the legislation on the issue of invasive species differs in different parts of BiH, and the most common invasive species in the area of BiH detected by the local population are babushka, crayfish, sunfish, perch, dropsy. In addition to these activities, a presentation was held at the conference regarding the three new syllabuses, as one of the results of the project. These syllabuses will be incorporated into the new study program of the II study cycle of the Biotechnical Faculty, department Engineering in Environmental Protection.

*U periodu od 12.09.-15.09. 2022. godina održana je finalna konferencija u Mugli (Turska) **Erasmu+ CBHE RiskMan projekta**. Finalnoj konferenciji, kao učesnik projekta sa Univerziteta u Bihaću, prisustvovala je i red. prof. Azra Bakrač. Na konferenciji predstavljeni su rezultati projekta, kao i sve aktivnosti koje su urađene u sklopu projekta. Prof. Azra Bakrač je na konferenciji predstavila rezultate pilot testiranja po pitanju invazivnih vrsta na području BiH. Kao rezultat pilot testiranja u BiH uočene su vrlo značajne činjenice po pitanju problematike invazivnih vrsta na području BiH, a to je da je pojam invazivnih vrsta gotovo i nepoznat među lokalnim stanovništvom BiH, da se vrlo malo pažnje pridaje ovoj problematici, da se legislativa po pitanju invazivnih vrsta razlikuje u pojedinim dijelovima BiH, te da su najčešće invazivne vrste na području BiH koje je detektovalo lokalno stanovništvo babuška, signani rak, sunčanica, smuđ, vodena kuga. Između ostalih aktivnosti, na konferenciji je održana i prezentacija po pitanju silabusa, a tri nova silabusa kao jedan od rezultata projekta bit će inkorporirana u novi studijski program na II ciklusu studija Biotehničkog fakulteta pod nazivom Inženjerstvo u zaštiti okoliša.*

ASK-ISK and Maxent Hybrid Workshop

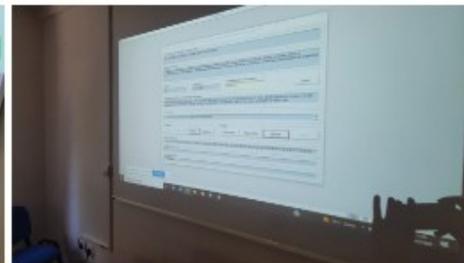

Trilateral meeting: UNBI – UNSA – UNZG

Bihać (Bosnia and Herzegovina) – 22/07/2022

Posted on July 27th., 2022

As part of the **Erasmus+ CBHE RiskMan project** on 07/22/2022 Hybrid workshop was held in Bihać on tools for assessing the risk of invasive species. The one-day training was attended by students, project participants from the University of Bihać, stakeholders – professional and recreational fishermen, and representatives from NP UNA. One of the lecturers was respected professor *Samir Đug* (Faculty of Science and Mathematics in Sarajevo) who decisively presented the work in the **Maxent software** program to the workshop participants. Workshop participants also had the opportunity to learn about another **software program ASK-ISK**, and the lecturer for this software program was *M.sc. Ivan Špelić*, who presented the influence of climate factors on the distribution of invasive species using the ASK-ISK software program. As part of the workshop, a discussion was opened by local fishermen, who conveyed the real situation and problems regarding invasive fish in the rivers in the USK area. The workshop ended with a visit to the laboratories at the Biotechnical Faculty, where the equipment provided by this project is located.

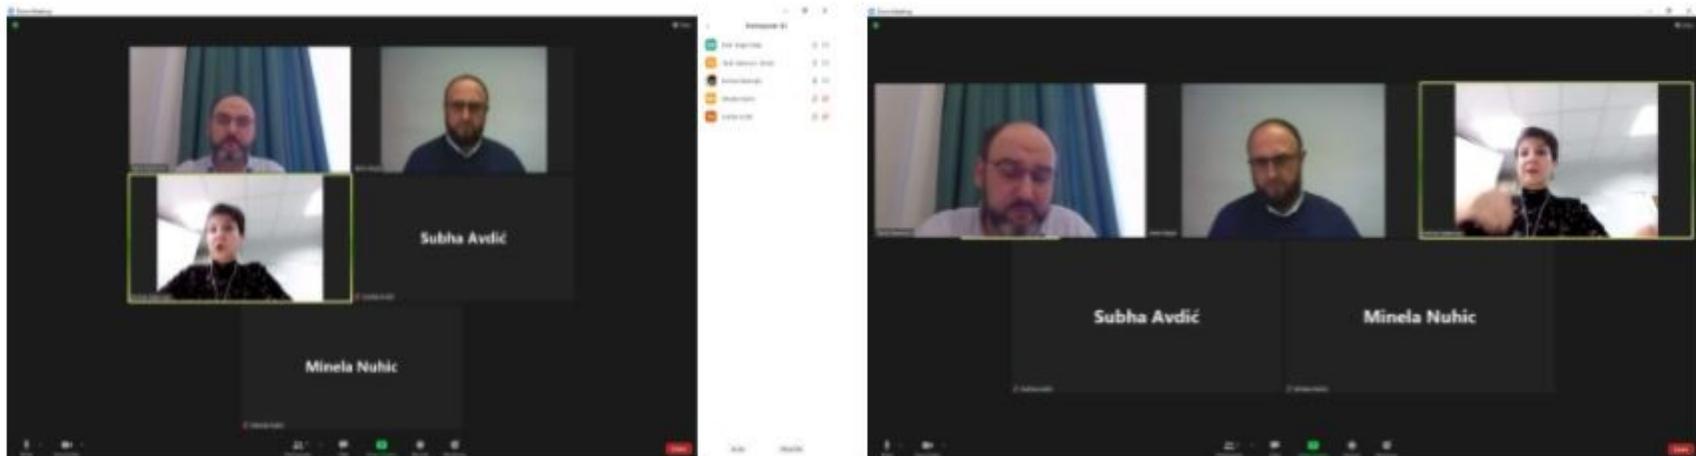

U sklopu Erasmus+ CBHE RiskMan projekta 22.07.2022. godine održana je radionica u Bihaću po pitanju alata za procjenu rizika invazivnih vrsta. U jednodnevnoj obuci sudjelovali su studenti, učesnici projekta sa Univerziteta u Bihaću, profesionalni i rekreativni ribolovci, te predstavnici iz NP UNA. Kao jedan od predavača bio je uvaženi profesor Samir Đug sa Prirodno-matematičkog fakulteta iz Sarajeva, koji je učesnicima radionice decidno predstavio rad u softverskom programu Maxent. Učesnici radionici su također imali priliku upoznati se i sa drugim softverskim programom pod nazivom ASK-ISK, a predavač za ovaj softverski program bio je Mr.sc. Ivan Špelić, koji je pomoću softverskog programa ASK-ISK predstavio uticaj klimatskih faktora na distribucija invazivnih vrsta. U sklopu radionice otvorena je i diskusija od strane lokalnih ribolovaca, koji su prenijeli stvarnu situaciju i probleme po pitanju invazivnih riba u rijekama na području USK. Radionica je završena posjetom laboratorija na Biotehničkom fakultetu u kojima je i smještena oprema nabavljena ovim projektom.

BiH National RiskMan Online Meeting

Online – Zoom meeting between UNSA and UNBI was held on Tuesday, Decembar 7, 2021. During the meeting, BiH partners discussed about possibility of joint procurement of equipment through the Erasmus+ CBHE project RiskMan.

BIOTEHNIČKI FAKULTET UNIVERZITETA U BIHAĆU U ERASMUS+ PROJEKTU

Upravljanje rizikom od alohtonih vodenih vrsta u zemljama zapadnog Balkana

■ Alohtone (ne-nativne) vrste imaju negativan utjecaj na autohtone vrste i ekosisteme

Biotehnički fakultet Univerziteta u Bihaću zajedno sa još 12 partnerskih Univerziteta i instituta iz zemalja EU, zemalja zapadnog Balkana te Republike Turske učestvovao je u Erasmus+ projektu "Educational Capacity Strengthening for Risk Management of Non-native Aquatic Species in Western Balkans (Albania, Bosnia and Herzegovina and Montenegro)" - RiskMan.

Projekt je odobren i financiran od strane Europske unije kroz program ERASMUS+ CBHE (Erasmus+ Capacity Building in Higher Education Call EAC/A02/2019 - Selection Year 2020. Projektni tim Univerziteta u Bihaću, Biotehničkog fakulteta čine: prof. dr. Azra Bakrač, doc. dr. Emir Mujić i MA Subha Džafić, viši asistent.

Istraživanje

nos u sigurnosti hrane, stvaranju prihoda i zapošljavanju u lokalnim ekonomijama, tokom godina se diversificira i uključuje alternativne vrste. Nažalost, ova praksa dovela je do uvođenja alohtonih (ne-nativnih) vrsta za koja je utvrđeno da imaju negativan utjecaj na autohtone vrste i ekosisteme.

njem alohtonih, ne-nativnih organizama u otvoreno okruženje.

Proces analize rizika uključuje protokole kroz koje je moguće identificirati potencijalno invazivne vrste i procijeniti rizike povezane s tim. Zbog svog zoogeografskog položaja i visokog stepena endemizma, biodiverzitet regiona za-

Co-funded by the Erasmus+ Programme of the European Union

Ekološki uticaji invazivnih stranih vrsta kreću se od interakcija pojedinih vrsta i smanjenja tzv. individualne kondicije autohtonih vrsta, pa i do opadanja populacije, lokalnih izumiranja, promjena u sastavu zajednice i

padnog Balkana je posebno ranjiv na negativne uticaje uvođenja alohtonih vrsta, što dovodi do visokog nivoa ugroženosti autohtone biološke raznolikosti. To dodatno naglašava važnost razmatranja uticaja ovih vrsta
